QUESTIONNAIRE – ALAI CONGRESS 2018 – MONTREAL

Since the congress theme should attract many copyright practitioners, the Canadian group has chosen to develop a questionnaire which you are asked to complete with succinct answers, in either French, English or Spanish. The answers will be compiled in an analytical table that will be given to congress participants so that they can leave with a document allowing them to quickly compare the situation prevailing in several countries.

It is therefore essential to complete the table below by briefly answering each question. We invite you to refer to the legal provisions that apply in your country, if any.

For national groups who would also like to provide additional information related to certain questions, we ask you:
1) to indicate "* see also answer No. X below" after the short answer that you have provided in the table.
2) to put your more detailed answer after the table.

Please note, however, that only the answers to the table will be compiled in the practical tool that will be given to the participants.
